## STEPPING STONES TO SUCCESS CAMPUS

**Our mission is to serve men and women who were formerly incarcerated, including “lifers.”**

We agree to never be a “prison outside of prison” for those we serve. We empower each participant to make their own good choices and walk beside them as they take their first steps to re-enter society. To make this possible, all clinical services are based on comprehensive assessments, and include:

- “Successful Re-entry” workshops
- One-on-one counseling
- “Thoughtful Parenting” classes
- “Relapse Prevention” workshops
- Cooking classes for beginners
- Skilled case management
- Cognitive behavior therapy workshops
- GED / DUI / vocational training
- Budget management classes
- “Real-world Alternatives to Anger” classes
- “Life Skills that Matter” workshops
- Job coaching and skill development
- “Ending Domestic Violence Now” classes
- Substance Abuse Disorder workshops
- Sex Addiction Recovery classes
- Intro to Modern Technology & Society for Lifers

## WE OFFER BOTH SOBER LIVING & TRANSITIONAL HOUSING.

**Staffed with certified Alcohol and Other Drug (AOD) counselors, workers, and educators.** All our residences are clean and sober-living environments created for those wanting a safe place to change their lives and learn independence. We provide only the best in curriculum and evidence-based programming.

### 3 WAYS WE STEP UP

- 1 We work with the families of our residents.** This proven approach is integral for parents, wives, close friends, and family members so that re-entry can succeed for everyone.
- 2 Our staff and leadership “get it.”** In fact, many in our leadership have worked in the justice system, family restoration, and re-entry programs for years. Some have been incarcerated themselves. Participants will benefit immediately from the experience.
- 3 We are committed to going to the last step.** Some programs will take you as far as their re-entry program allows, and then you’re on your own. We recognize that often continued treatment may be needed, so we work hard to offer those services.
